GLOBAL CAPABILITIES

Joinn Laboratories and Biomere merged to form a new premier, global nonclinical contract research organization (CRO). The Joinn-Biomere merger creates a new and expanded North American business subsidiary greatly enhancing our global scale and international footprint, while complementing and expanding on our scientific portfolio. With locations on the east and west coast and China, we are ideally suited to support our clients' needs.

EAST COAST WORCESTER, MA

Our rapidly growing specialty, discovery-based CRO, is located in Worcester, MA and serves as our flagship site for North American business and is near one of the world's premier life sciences hubs. We offer an extensive portfolio of preclinical research services from *in vitro* analyses, early discovery and proof-of-concept to discovery toxicology.

Nonclinical capabilities include pharmacokinetics, lead compound screening, proof of concept, efficacy assessment, pharmacology, mechanism of action, and early lead optimization. Biomere also provides supportive colony maintenance, backup colony support and on site room use agreements.

- Established 1996
- Acquired 2019
- 100,000 ft²
- OLAW assured 1999
- AALAC assured 1999
- USDA Registered 2008
- FDA Audit 2019
- ~120 FTEs
- Rodents - NHPs
- Largest NHP lab in NE
- Bioanalytical capabilities planned

WEST COAST RICHMOND, CA

As part of a bi-coastal initiative in the U.S. to provide the industry with better options for accelerating discovery and development, our California-based vivarium opened April 2020. We are located just north of San Francisco near Napa, in Richmond, CA.

Whether you need a room, or space with husbandry and study support, we have capacity and staffing options utilizing our team or yours.

- Established 2017
- Acquired 2020
- 60,000 ft²
- Discovery-based
 - Rodents
 - Room use agreements
- Bioanalytical capabilities planned

CHINA SUZHOU, BEIJING, WUZHOU, CHONGQING

A pioneer in commercial GLP services, Joinn Laboratories is a leading CRO in China with facilities located in Suzhou, Beijing, Wuzhou and Chongqing.

Contact us to secure your personal liaison who will partner with you to navigate the prospect of placing studies in China. The cost savings are substantial. It is personal to us, that your inquiries are addressed in a manner which make the process seamless.

**AT BIOMERE,
IT'S PERSONAL.**
Driven to expedite your journey.
