

ANGELA LYNCH HAS MORE THAN 30 YEARS OF RESEARCH, CONSULTING AND REGULATORY EXPERIENCE

Angela Lynch has more than 30 years of research, consulting, and regulatory experience. She is a pharmacologist and toxicologist, who has extensive experience with both big and small companies within the biotech and pharmaceutical industries. Angela has relationships with national and international CROs.

She has expertise with small molecules, biologics, as well as gene therapies in developing protocols, study monitoring, reviewing, and summarizing both GLP and non-GLP nonclinical pharmacology. She is also proficient in toxicology data, as well as other published scientific data of various types of pharmacology and toxicology study types.

She also has experience interacting with regulatory agencies and regulators. She is an active member of the Society of Toxicology, Regulatory Affairs Professional Society, American Society of Gene and Cell Therapy and is a Diplomate of the American Board of Toxicology (DABT).
