### **APRIL HALL SERVES AS CHIEF BUSINESS OFFICER AT BIOMERE.**

April Hall is a veteran of the CRO industry and a bioengineer by training. She has over 30 years of experience in pharmaceutical and medical device research. For the past 25 years, April focused on preclinical contract research business development. She served many leading contract labs including Charles River Laboratories, Transgenomics and Sinclair Research Center in this role. Her experience gives her a unique perspective supporting both sides of the development process, as a client herself developing devices and biologics as well as working with hundreds of clients to manage their preclinical programs globally.

Her relationship with clients is personal to her. At the end of the day, we are all working to develop new cures and therapies supporting healthier lives. Her diligence assures our clients receive great study start times, ample model availability, and services tailored to meet every need. April received her B.S. and M.S. from Clemson University and MBA from Northcentral. She serves on the SAB for the Pediatric Medical Device Institute.
