

Liqiang Zhou, PhD, DABT

**Director of Toxicology
(Dept. #1)**

JOINN Laboratories (Suzhou)

LIQIANG ZHOU SERVES AS DIRECTOR OF TOXICOLOGY IN DEPARTMENT ONE AT JOINN LABORATORIES (SUZHOU)

Dr. Zhou is a PhD and graduated from China Pharmaceutical University in 2011. He has more than 10 years of experience in the pre-clinical safety evaluation of drugs and has been certified as a Diplomat of Certified Toxicologist of CST (DCST) and Diplomat of the American Board of Toxicology (DABT). He is a member of the Mutagenesis Committee of the Chinese Society of Environmental Mutagenesis, the Toxicology Committee of the Chinese Society of Toxicology, and the Toxicology Committee of Jiangsu Province.

He is responsible for pre-clinical safety evaluation projects including small molecule chemical drugs, Traditional Chinese Medicine, ADC drugs, cell therapy drugs, oncolytic virus and special route of administration projects (transdermal administration, joint cavity injection, endotracheal injection).

In more than ten years of work, Dr. Zhou has completed hundreds of projects supporting safety evaluation studies. Several drugs have gained the approval of the China National Medical Products Administration (NMPA) and U.S. Food and Drug Administration (FDA) to enter clinical trials. He is familiar with GLP regulations and guidelines of various countries, including FDA, OECD, EMEA and NMPA.
