

Jiajie Zou

Director of Toxicology
JOINN laboratories (Beijing)

JIAJIE ZOU SERVES AS DIRECTOR OF TOXICOLOGY AT JOINN LABORATORIES (BEIJING)

Jiajie Zou is the Director of the Toxicology Department at JOINN laboratories (Beijing). Director Zou graduated from China Agricultural University, obtained the Chinese Toxicologist qualification certificate, and has been engaged in the pre-clinical safety evaluation of drugs for more than 10 years.

He is now mainly responsible for general toxicology research. He is familiar with the regulations and guidelines of the NMPA and foreign countries and participated in USFDA and CFDA on-site inspections. Jiajie has been responsible for conducting the safety evaluation of more than 150 drugs and more than 300 studies. Several projects under his charge have successfully gained the approval of China and foreign countries to enter clinical trials. The drugs that have been evaluated included small molecule drugs (mainly chemical drug class 1.1) and large molecule drugs (novel biological products, bispecific antibody, and ADC).
