Facility Manager

JOINN Laboratories

SUCAI ZHANG SERVES AS FACILITY MANAGER AT JOINN LABORATORIES

Associate Research Fellow, Toxicologist Certificated by the Chinese Society of Toxicology, Member of the Committee of Safety Pharmacology of Chinese Pharmacological Society, Member of the 7th Committee of Biologics of the Chinese Preventive Medicine Association, Winner of "E-Town Talent", Sucai Zhang has over 10 years experience in drug pre-clinical safety evaluation, and accomplished over 300 studies while serving as a study director, including general toxicity study, immunotoxicity study, safety pharmacology study, and carcinogenicity studies.

His main research disciplines are pre-clinical evaluation of vaccines and immunomodulators, gene and cell therapies, and new dosage-form/new carrier drugs. His subject areas of the studies include traditional Chinese medicine/natural drugs, chemical drugs, and biological agents. Sucai participated in five national and Beijing municipal projects, such as "Major New Drug Discovery" project of the 12th and 13th Five-Year Plans. He also participated in the writing of the "Guide for Toxicological Safety Evaluation Standard Operating Procedures" and published more than 20 scientific papers.
